WATER WORK

With meticulous design, serious attention to safety, fits for purpose and a progressive commitment our environment with sustainable production and quality apparel that lasts, JetPilot creates the gear for the water seekers and work makers who love life in the sun -

creating not just a brand but a reflection of our lifestyle. Our DNA is Australia's water culture combined with a work obsession. An expression of a lifestyle without limitation. Protect yourself, express yourself, through the clothing you wear, the friends you keep & the adventures you pursue that is life.

CONEHED TECHNOLOGY™

The most advanced helmet technology in the World

In a crash, the impact force pushing towards the head causes the cones to compress which creates lateral forces spreading sideways through the higher density outer foam layer. Impact energy/force is absorbed by this lateral motion. At the same time, the head is travelling in the opposite direction, compressing the bases of the lower density cones and slowing the accelerating head.

The result is lower G-force experience for your head.

The Benefits: A lighter helmet + softer protective shock absorbing foam closer to your head.

PERFORATED AIRPRENE

Internal has been ergonomically designed to keep you head safe and in advanced comfort by using Perforated Airprene liner for fast water release and draining and reduced drying time.
